Re: Land Disposal Restrictions
American Bottoms Regional WWTP
ILD 000 672 337

Dear Mr. Roddy:

COMPLIANCE

On November 3, 1989, the Illinois Environmental Protection Agency (IEPA), representing the U.S. Environmental Protection Agency (U.S. EPA), conducted a land disposal restrictions inspection of the above-referenced facility. The purpose of the inspection was to determine the facility's compliance with respect to the Federal Land Disposal Restrictions. The land disposal restrictions for F001-F005 spent solvents became effective on November 8, 1986, (40 CFR Part 268, and revisions to 40 CFR Parts 260-265 and 270) and for "California List" hazardous wastes on July 8, 1987, (52 Federal Register 25760: revisions to 40 CFR Parts 262, 264, 265, 268, and 270-271). Additionally, the land disposal restrictions for First Third of Scheduled Wastes became effective on August 8, 1988, (53 Federal Register 31138: revisions to 40 CFR Parts 264, 265, 266, 268 and 271).

As a result of the inspection, your facility was found to be a non-generator of land ban waste. Therefore, the LDR requirements do not apply to your facility at this time. A copy of the inspection report is enclosed for your records.

If you have any questions regarding this correspondence, please contact Gertrud Matuschkovitz of my staff at (312) 353-7921.

Sincerely yours,

Paul E. Dimock, Chief
IL/MI/WI Enforcement Program Section
